Judge Claims Victory In India Test

BULLETIN
UNITED NATIONS, N. Y.—India failed today to win sufficient U. N. support to give her a seat at the Korean peace conference. She received a majority of the votes cast in the 60-national Political Committee, but fell short of the two-third majority required for approval by the General Assembly which acts tomorrow. The vote was 27 for, 21 against, 11 abstaining and India not participating.

UNITED NATIONS, N. Y.—S. S. plans to bar India from the Korean peace conference and admit Russia only on the Communist side of the table faced their voting test today in the U. N. assembly's Political Committee. J. S. Chief Delegate Henry Cabot Lodge, Jr., expressed confidence he could muster the necessary majority to support the American position. The Soviet Union countered with implied threats that Communist China and North Korea would boycott the conference lineup but the 15-nation "roundtable" demanded by the Russians. The committee hoped to vote today on four major proposals: 1. Inviting South Korea and 16 U. N. members who fought Korea to attend the conference as U. N. representatives. 2. Inviting Russia to attend provided the other Communist states desires it. The Russians oppose being classed with the other and have proposed an amendment to delete this phrase. 3. Inviting India to attend. This is the resolution the United States opposes and the British are endorsing.

Police Nab 35 Speeders In Lynnfield

Lynnfield police have nabbed some 35 motorists, most of them residents of the town, in the last few days as part of a severe crack-down on speeding, Chief William Foley said today.

First offenders will get off lightly but in cases of repeaters, Foley will ask the Registry of Motor Vehicles to suspend their licenses.

While the speeding is general in most sections of town, Summer Street is the scene of most of the offenses.

Earlier this week a group of 67 residents petitioned the Lynnfield selectmen to take measures to curb speeding on Summer Street.

The police department is handicapped in controlling speeding by lack of manpower. On all shifts
