**Jailed PWs May Be Freed By Enemy**

PANMUNJOM, Aug. 26 (AP)—Another 400 UN soldiers returned from North Korean stockades today amid indications the Communists will send back some Americans handed jail terms and possibly more prisoners than they originally promised.

Two of the 133 Americans who crossed into friendly hands today said some fellow Americans sentenced to prison for "instigating against the peace" were awaiting repatriation, possibly in a day or two, at Kaesong. Kaesong, just north of Panmunjom, is the Communist holding point for Allied POWs.

The apparent switch in the Communist attitude toward these prisoners followed protests by the UN Command that the Communists were holding back dozens of men on trumped-up charges.

**To Make No Comment**  
At the Allied base camp at Munsan UN Command spokesmen said there would be no comment on the reported return of the jailed Americans.

Along with 133 Americans, the Communists returned 17 British and 250 South Koreans today, the 22d day of the big exchange of war prisoners.

**For 5th Straight Month**

WASHINGTON, Aug. 26 (AP)—The Government reported today that living costs edged to a new record high in mid-July. The increase was enough to give 1,000,000 auto industry workers a 1-cent hourly pay boost.

It was the second straight month that the Government's living-cost measurement had hit a record. The index has risen now for five months in a row.

Higher prices for food, rent, transportation and medical care were the main items responsible for the new boost in consumer costs.

The Bureau of Labor Statistics said its index, known as the consumers price index, reached 114.7 percent of the 1947-49 average. This is 2/10 of 1 percent higher than in mid-June, which was also a living-cost peak. The mid-July level was 1/2 of 1 percent above a year ago and 12.7 percent above the level at the start of the Korean war.

Pay rates of auto workers vary with the index under contracts between major car producers and the CIO auto workers union. Similar contracts govern about 40,000 electrical workers in the auto industry represented by the International Union of Electrical Workers (CIO).

Average hourly pay for hourly rated workers in the auto industry as of May 1 was \$2.10 including overtime, according to the Automotive Manufacturers Association.

Between mid-June and mid-July food prices rose 1/10 of 1 percent—with sharp declines in fresh vegetable prices nearly offsetting increases for other foods, particularly eggs, pork, poultry and fresh milk.

Rents rose .4 percent during the month, medical care .3 percent and transportation .2 percent. Apparel prices declined .2 percent and the reading and recreation index .4 percent.

# Record Berry Sale Predicted

## L. A. Blake Announces \$3 Advance to Growers

Special to The Standard-Times

MIDDLEBORO, Aug. 26—Confidence in the marketing of the 1,000,000 barrel cranberry crop was voiced today by L. A. Blake, general manager of the New England Cranberry Sales Company.

Mr. Blake said his organization of about 250 growers expects a sharp increase in production this year but anticipates no major difficulty in marketing the crop. Major share of their tonnage is sold as fresh fruit through Eatmor Cranberries, Inc., with headquarters in New Bedford.

As an indication of this confidence in the future, Blake said his co-operative has made arrangements for an immediate \$3 a barrel advance for berries delivered in the chaff to company screenhouses. This is expected to help growers meet harvesting expenses anticipated this season.

Annual fall meeting of the co-operative will be held at Carver-Town Hall at 7:30 p. m. Sept. 3 to hear results of the sales company's survey of the estimated quantity and condition of the 1933 crop. Reports on the marketing plans of Eatmor also will be heard. A chicken pie supper at Sons of Veterans Hall will precede the business meeting.

# Airport Commission Invites Public to Attend Air Fair

New Bedford Airport commissioners have extended an invitation to the public to attend the air fair, designed "to acquaint the aviation industry with our outstanding airport," at the airport grounds Sept. 19 and 20.

In a statement on connection with the fair, the commissioners said, "The New Bedford Airport Commission has recently completed what we think is the finest Class 4 airport in the United States. In order to acquaint the aviation industry with this outstanding development we are sponsoring a two-day air fair, Sept. 19 and 20. The air fair is in co-operation with the national observance of the 50th anniversary of power flight."

The commission invites the citizens of New Bedford and surrounding communities to join in a national tribute to the pioneers of aviation who have contributed so much to the advancement of aviation since Dec. 17, 1903, when the Wright brothers first flew the strange contraption they called an airplane at Kitty Hawk.

On May 15, Governor Herter proclaimed the period ending Dec. 17 as the golden anniversary of flight. Governor Herter said that Massachusetts should be

proud of her part in aviation development. He pointed out that the first aero club in the Western Hemisphere was formed in Boston in 1902.

First air meet in the United States, sponsored by the Harvard Aeronautical Society, was held at Aquantum in 1910. First airplane under license from the Wright brothers, was built in Marblehead by Starling Burgess and Greely Curtis in 1911, and the first air express was carried from Franklin Park, Boston, to Providence in 1913. "In more recent years," the governor added "the first night passenger flight left Boston for New York in 1927 and the world's first scheduled helicopter passenger flight left downtown Boston for Logan Airport in 1947."
