

# Piccard Dives 5/8th Mile In His Bathyscaph

**ABOARD THE CORVETTE FENICE OFF CAPRI, Italy** — Auguste Piccard, stratosphere balloonist of the early '30s, plunged five-eighths of a mile deep into the Mediterranean in his bathyscaph today. The successful descent was made after two previous dives failed.

The Swiss scientist took his box-shaped steel-hulled device down 1,831 meters, to the bottom of the sea two miles south of the tourist Isle of Capri.

That was deep enough to beat the 90-meter dive Sir William Beebe made in his bathyscaph off Bermuda in 1934, but was no challenge to a record held by the French.

Piccard said earlier that if the Capri test succeeded he may try within a few weeks for 3,000 meters in the deep between Ponza and Sardinia.

In his first test dive of the day, he got his odd water-exploring device only a short distance under the surface of the sea off this famed Mediterranean resort island. At that point the sea is a little more than 3,000 feet deep.

Piccard, a Swiss scientist who made a 10-mile balloon ascent in 1932, had his bathyscaph hauled back to the surface after being submerged only three minutes.

An hour and a half later, he jockeyed his device with its bubble-like observation compartment into a diving position again. Once more the cable lines were paved out from an accompanying Italian naval corvette, the Fenice, which carried the official observers and newsman. The round bathyscaph submerged again at the rate of a yard a second. But it didn't last long. Piccard ordered a halt in less than seven minutes and was hauled up again.

## MISSING STUDENT FOUND

**WELLESLEY, Mass.** — Wellesley police said today that Sylvia Plath, 20, a Smith College senior missing since Monday, had been found.

She was taken to Newton-Wellesley Hospital by police who refused further details immediately and declined to answer when asked about the truth of a report she had been located in the cellar of her own home.

When she left home Monday the girl left a note for her mother saying she was going for a hike.

## Firemen's Pay

(Continued from Page 1)

were borrowed. The Kiwanis donated radio now in the ambulance would be transferred to the electricians' truck.

Dugan complained that under the fire department's plans, only about \$526 would be left for the police. This would not be enough to equip one motorcycle. The plan, approved last spring by the budget committee, he noted, would provide radios for the chief's car, the patrol wagon and two motorcycles.

Committee Chairman Josiah S. Bliss contended that it was agreed that the two radios used by the fire department would be returned to the police and the latter would get an additional radio for one motorcycle.

Dugan argued that car radios could not be used in the three-wheeled motorcycles. He recalled Dr. M. Osmond Grimes' motion in April "to give each chief what he wanted."

\$100 Added

After considerable figuring, the committee agreed to add another \$100 to the \$526 balance, thus giving the police the cost of one radio for the cycles. With the federal government matching this figure, the city would then get the two light radios required.

Under this procedure, the two radios to be returned by the fire department would be installed in the police chief's car and the patrol wagon.

The committee, therefore, recommended to the finance committee that the \$100 be added, plus \$100 for matching funds.

Next Tuesday the Council probably will appropriate \$4,700 from bond money, plus another appropriation \$4,900, to complete the purchase. After the city presents a receipted bill, the federal government will rebate \$4,800.

Eldridge informed the committee that the price of a new pumper, to replace the one damaged in the Young Street-Spring Street collision last June, had been increased \$1,000. The price is now \$18,500.

## VERMONT MAN SLAIN

**SHARON, Vt.** — Frank Krivack, 35, of Sharon was found slain in an old school building here today.

Investigators said he had been bound, gagged and shot to death. Windsor County officers were called and the state pathologist was summoned from Montpelier.

State Police investigators reported that Krivack's body had been tied to rafters and that gasoline soaked rags around it had been partly burned.

His fiancée, Marion Miner of Windsor, whom he was to have married next Saturday, was taken into protective custody by authorities and lodged in the Windsor County Jail at Woodstock.

## Dulles

(Continued from Page 1)

of the President's power to make treaties.

Dulles also sharply attacked a part of the proposed amendment which he said would permit Congress to void executive agreements — agreements made by the President with foreign governments. He noted that the Korean armistice was negotiated by an American military commander under instructions from Washington.

Such restrictions, he said, would make it impossible for the United States "to share in the voluntary and friendly association of free nations which is necessary to offset what the Soviet Premier refers to as the 'monolithic unity of the Soviet system.'"

Further, Dulles argued:

"If the United States renounces the power to act effectively in international affairs, because that power might be abused, the result will be a large measure of international anarchy."

"It is impossible to rewrite the Constitution of the United States so that it is fool proof. It is impossible to make freedom so automatic that its retention does not need constant vigilance."

## STRIP-TEASE—RED STYLE

**PANMUNJOM** — Two attractive Polish women showed up today with a delegation of Polish and Czech officers to welcome returning North Koreans.

Many of the Communist prisoners had discarded their clothes on the way to the exchange point in a last defiant gesture.

By the time they sighted the Polish women—both interpreters—they had little to cover themselves with except their caps.

## Jamestown Motorist Fined On Reckless Driving Count

**John R. Collart, 19, of Clinton Ave., Jamestown, was fined \$25 and costs in police court today after pleading nolo to a charge of reckless driving on Conaricus Avenue, Jamestown, Aug. 13.**

Jamestown Police Chief Gratton Greenleaf said Collart was the driver of a car which knocked down a boy who was crossing the street. Peter Anderson, 4, son of Mr. and Mrs. John M. Anderson of Lincoln Street, Jamestown, suffered minor head bruises.

Norman F. Dufault, 23, of Mapleville, pleaded nolo to a charge of speeding on East Main Road, Middletown, Tuesday and was fined \$25 and costs by Judge Arthur J. Sullivan.

Ralph E. Ratliffe, 41, of Evans Avenue, Tiverton, retracted an earlier plea of guilty and pleaded innocent of reckless driving on Park Avenue, Portsmouth, Aug. 6. He was placed in \$200 bail for a hearing Sept. 4.

## Little Compton Gets 4 Acres In Tiverton Line Dispute

**LITTLE COMPTON** — This town has gained four acres in a settlement of its town line dispute with adjoining Tiverton, town officials announced today.

Since colonial days, the town boundary has run southwest from the Massachusetts border to the vicinity of Pamomquit Pond and from there the last 300 feet have followed a small stream from the pond to the Sakonnet River.

But through the centuries, storms and the action of the tidal river have filled the stream, isolated the pond and erased the town line.

So the Town Councils of the two towns decided to employ a surveyor to establish a new line, and all agreed that it should be extension of the straight border rather than taking the dog-leg course of the old stream.

This pleased some people having summer places in the area, as it placed them in Little Compton, which has a tax rate of \$17 on each \$1,000 valuation.

Antone Tavares of Fall River discovered that his property is in both towns, the new line running through his house. On half of it he will pay this town taxes at \$17 while the other half will be assessed in Tiverton, which has a tax rate of \$18.40.

## SCHOOL REGISTRATION GROWS

Public school registration continues to move ahead of last year's as officials prepare for opening of schools on Tuesday, Sept. 8.

Yesterday, the second day of registration, 187 applications were made compared with 153 last year. The two-day total was 510 as compared with 490 in 1952. This morning 56 registered as compared to an all-day total of 74 on the corresponding day last year.

## United Nations

(Continued from Page 1)

sembly must decide if she should attend.

He paid scant attention to the bitter attack made on India the night before by Y. T. Pyun, South Korean foreign minister. Pyun said it was impossible for his country to sit at a peace table where India was a U. N. representative.

Henry Cabot Lodge Jr., head of the U. S. delegation, insisted that the U. S. opposition was based only on the fact that India was a neutral and the Americans contend only belligerents should be on the U. N. team at the peace conference. If that parity is successful he said, there can be a general Far Eastern conference and for that the United States will work to have India seated.

Vishinsky Files Resolution  
Andrei Y. Vishinsky, the Soviet delegate, told the committee that the conference cannot succeed if only belligerents are seated across the table.

Vishinsky came in with a new resolution increasing from 11 to 15 the number of nations he proposed for the conference. Sweden, which had refused Vishinsky's original bid, was dropped and Czechoslovakia, Indonesia, Syria, Egypt and Mexico were added. Both Vishinsky's old and new lists contained the United States, Britain, France, Russia, North Korea, South Korea, Communist China, India, Poland, and Burma.

Through the new Soviet resolution obviously was designed to appeal to a wider range of countries, observers considered it had little chance of adoption.

## B36 Jet

(Continued from Page 1)

have been described by the Defense Department as capable of carrying atomic bombs.

So the combination seems to provide a formidable merger of speed, range and killing power.

The six piston engines and four jet engines of the B36 give it a speed of more than 435 miles an hour and an over-all range of 10,000 miles, assuming a 10,000-pound bomb is dropped midway, or a combat radius of about 850 miles.

The Air Force said its new development was the first known arrangement for flying a full-size combat plane from a mother aircraft, although small experimental planes have been so flown.

The fighter is lowered out of the B36's bomb bay on a tripod gear before its engine is started. It is not released until its engine has been started.

One of the photographs shows the B36 snuggled well up into the huge bomb bay, in position for being carried.

The Air Force also disclosed yesterday that the power of the B36 had been stepped up in new models so that it can take off at weights up to 400,000 pounds, compared with the previous 358,000 pounds. The new maximum is almost three times the maximum takeoff weight of the B29, work-

## Fraud Against State Increases, Says FBI Head

**WASHINGTON** — FBI Director J. Edgar Hoover said today there was an alarming increase last year in attempted frauds against the government.

His agents, he said, had been called upon to investigate 1,820 such cases during the 12 months ending June 30. Hoover reported that prosecutions resulting from these inquiries had resulted in 202 convictions, up 96 from the previous fiscal year.

## County Breaks

(Continued from Page 1)

licated in the Newport County breaks after hundreds of fingerprints were checked by police. The men admitted being involved, according to Sgt. Thomas F. Stratton, in command of the Portsmouth state police barracks.

The intensive investigation was conducted by state police, aided by Chiefs Benjamin P. Phillous of Portsmouth and Owen L. Nolan of Tiverton and Inspector George Thomas of the Fall River police.
