**Room Cost
To Increase
Next Month**
**Salaries Lead
Rising Costs**

A new rate schedule for ward, semi-private and private patients at Newton-Wellesley Hospital recently has been approved by action of the hospital's Board of Governors and will go into effect in September.

The increase, the first in more than 18 months, has been authorized in the face of rising costs produced in large part by necessary salary increases. Room rates will be raised a dollar a day across the board, with the exception of charges for the newborn, where there will be no increase. There will also be no advance in charges for X-ray, Laboratory and other ancillary services.

For some time the salary schedules in effect at Newton-Wellesley Hospital have not been competitive with other hospitals in the area. In the face of the critical nursing shortage it was becoming ever more difficult to hold both nursing and non-nursing employees and virtually impossible to attract necessary new personnel at the salaries that the hospital could offer.

Government and veterans hospitals had salary schedules well in excess of those that obtained locally and thus it was exceedingly hard to hold and attract the needed employees. Several new positions were created in the non-professional ranks to help ease the burden on the nursing staff and to maintain the hospital's present high standards of patient care, nursing salaries were upped effective June 29, and non-nursing salaries were increased effective June 29.

Salaries in the laboratory department have also been augmented. Several new positions were created in the non-professional ranks to help ease the burden on the nursing staff and to maintain the hospital's present high standards of patient care, nursing salaries were upped effective June 29, and non-nursing salaries were increased effective June 29.

In a few instances other salaries were also raised.

13 1/2-Hour Flight
By Woman of 61**

SHANNON AIRPORT, Ireland (AP)—Mrs. Marion East, 61-year-old American sportswoman, flew a single-engine sports plane non-stop across the Atlantic today in 13 1/2 hours.

It was the first direct crossing in a small, single-engine plane from Newfoundland to Ireland since the pioneering days of transatlantic flight.
Mrs. East, from New York, said she planned the flight to save the cost of taking the wings off her Beechcraft and sending it across by ship.
The project wound up coasting her three times as much as it would have to ship the plane and it was worth it, she said, because "it was such a beautiful crossing in bright moonlight." She declined to say how much she spent.

**Miss McDonald
Due in Court.**

SOMERVILLE (AP)—Blond Mildred McDonald, 25, was to answer to a murder charge today as funeral services were held for the 14-year-old girl she admitted killing in a fit of jealous despair.

Miss McDonald, brought back from New York by train, arrived in Boston early this afternoon. She was to have been returned here by plane last night, but those plans were altered after American Airlines refused her passage because of a company rule against carrying a "prisoner in the custody of a legal guard."

The frail-looking stenographer spent the night in a New York jail cell, after a long, nerve-wracking day during which she signed a statement saying she shot, slashed and burned Mary DiBacco, with whose brother she kept company until he married another.

Dwight L. Allison, Miss McDonald's counsel, indicated in New York last night what tack he would take with the appearance of his client in District Court here.

West Surveys
Revolt June 17

BERLIN (AP)—The West German government reported today that at least 30 East Germans have been executed as leaders of the June 17 anti-Communist uprising, but said the 16 figures were only a minimum.
A survey by the Bonn Ministry of All-German Affairs said that three letters had been given life terms, and 164 others had been sentenced to a total of 800 years in prison. The survey covered only "proved and documented" cases handled up to Aug. 12. Two more life sentences were reported this week, and the West had received reports that the Russians and their German Communist satellites have carried off several hundred additional prisoners to unknown fates.
